Re: Trickling Filter Pump Purchase

In accordance with Section 2-182 of the City Ordinances, this memo is to advise you of an emergency purchase for a trickling filter pump for the wastewater treatment plant.

When one of the trickling filter pumps failed, that left the plant operations vulnerable. A replacement pump of the same brand, make and model was ordered so that no modifications needed to be made to reinstall the pump. The invoice no. 566794.804 from Kennedy Industries in the amount of $26, 208.00 for this purchase is in the current council meeting bills to be paid.

Please let me know if you have any questions.
