

City of CHARLOTTE

MEMORANDUM

TO: Mayor Lewis and City Council Members

FROM: Gregg Guetschow, City Manager

SUBJECT: City Manager's Report

DATE: March 25, 2016

Meter Reading. I have been advised by Consumers Power that they will be taking steps to read about 40 meters in Charlotte for which they have been able to do only estimations. I understand that this will be taking place in the near future and could result in questions from some property owners with those meters.

Vacant City Property. Bryan Myrkle and I met recently with a business owner regarding his interest in the former Bank of America drive-through location. There is a second property not owned by the City that he is also considering. I previously reported that an individual had expressed an interest in the vacant residential parcels the City owns but I have had no further contact from her on this matter.
