Good morning,

My name is Pauline Borgman, I live in Charlotte. I have a friend that told me the City was going to raise water rates.

As a senior, who receives Social Security, I protest the raise. I have a feeling that you will just arbitrarily do this and not let anyone know about it.

It's difficult for us seniors when things keep rising and we don't get a raise. I'm sure you all get raises and I have a feeling that most of you probably live outside the city limits so you do not have a water bill. I pray that you will really think about not raising the water. I'm sure there are many that can't afford a raise in the water rates even though they are not seniors.

A concerned Charlotte citizen,

Pauline Borgman
