

Memo

To: City Council
From: Amy E. Gilson, P.E., Director of Public Works 
Date: June 23, 2016
Re: Tirrell Lift Station Generator

At the city council meeting on June 13, 2016 council member Bahmer requested information about the generator at the Tirrell lift station. The generator is budgeted to be replaced in the coming fiscal year.

Year installed: 1979

Type of engine: Internal combustion

Fuel: Diesel

Hours: 2825.3 (as of 6-14-16)

The new generator will run off of natural gas. This will eliminate the need for the fuel storage tank. Annual fees associated with the fuel tank include registration with the State and a tightness test.

Please let me know if you require additional information.

cc: Gregg Guetschow, City Manager
