Your Name: BRIAN J CALLAHAN

Your Address: [1633 W Broadway Hwy, Charlotte, MI 48813](#)

Your Email: BCALLAHAN17@GMAIL.COM

Comment: To our leaders and representatives for the citizens of Charlotte, I am writing to you today regarding public utilities, or lack thereof, for sections of our community in this age of social distancing and self-quarantine.

As citizens are forced to shelter inside and work from home (for those of us still fortunate to still have jobs), the need for basic public utilities has never been higher. One of these necessities now is the need for access to the internet. Unfortunately, many sections of this town still do not have access to hard-lined internet or cable. Where we have seen high-speed internet installed in much of the community the area of [1633 W Broadway Hwy](#) continues to be ignored for such services, including paved roadways, cable, and internet. The residents in this area have been paying the same property taxes as the rest of the community, many of us for more than 30 years now, yet we continue to see these new services pass us over for other areas of the community. The 21st century is an age of technology, yet we still lack basic access.

I am reaching out to ask to please be our voice and connect my area to the rest of the community and install hardline cable and internet. I feel I speak for the masses when I say that we are now a society dependent upon access to internet. Thank you for your time and attention and I eagerly await your response and acknowledgement of my wishes.

Sincerely and stay safe,

Brian J. Callahan
(on behalf of Ms. Peterson)
