

City of CHARLOTTE

MEMORANDUM

TO: Mayor Lewis and City Council Members

FROM: Gregg Guetschow, City Manager

SUBJECT: Final Approval of Resolution 2017-15

DATE: March 10, 2017

During Council's previous meeting, you discussed Resolution 2017-15 that would establish a schedule of street reconstruction and rehabilitation projects. During debate on the resolution two amendments to the motion approving the resolution were introduced. One, proposed by Council member Bahmer, failed. A second amendment proposed by Council member Ridge was approved.

Unfortunately, I failed to adequately perform my duties as unofficial parliamentarian. As a consequence, no action was taken on the amended motion.

Robert's Rules of Order makes an allowance for such circumstances. It provides as follows: "If a question was pending at the time of adjournment , it is taken up as the first item under unfinished business...resuming the question at exactly where it was previously interrupted. "

Since we do not have a section of the agenda entitled "unfinished business," I have placed this matter as the first item under "Expedited Resolutions and Ordinances." I have rewritten Resolution 2017-15 to reflect the approved amendment. While it is anticipated that Council would take final action on this resolution, other amendments are in order.

RESOLUTION NO. 2017-15

A RESOLUTION TO APPROVE A STREET IMPROVEMENT PROJECT IN THE CITY OF CHARLOTTE FOR 2017

BE IT RESOLVED that the City Council does hereby approve the following street improvement project and authorizes staff to commence actions necessary to undertaking said project:

East Lovett Street from Cochran Avenue to Washington Street...2017
