

Memo

To: City Council
From: Amy E. Gilson, P.E., Director of Public Works 
Date: November 9, 2021
Re: Bio-solids Soil Injection Bids

In your packet you will find a resolution to approve the proposal for the soil injection of bio-solids from the wastewater treatment plant. Bids were received on November 9, 2021, and following are the quotes received:

BioTech Agronomics, Inc. \$ 0.044/ gal for 2022- 2025
\$400/ hour for cleaning services

Nutrigro Environmental Solutions, Inc.

\$ 0.044/ gal for 2022- 2025
\$475/ hour for cleaning services

BioTech Agronomics had the last City contract for bio-solids removal, and their work was satisfactory. Therefore, I am recommending that the bid for bio-solids soil injection be awarded to BioTech Agronomics, Inc. of Beulah, MI.

Please let me know if you have any questions.
